Suyog Gadal Bishwokarma

Kathmandu, Bagmati/Nepal | +977-9803863743 | suyoggadal1000@gmail.com

Proactive IT professional with experience in data analytics, full-stack development, Azure services, and ETL processes, specialized in large-scale data warehouse projects and direct client interactions. Agile methodologies and troubleshooting with a firm commitment to the delivery of innovative solutions.

EDUCATION

NEPAL POLICE SCHOOL
Higher Secondary Education **CGPA: 3.45/4** *2016-2018*

CHITKARA UNIVERSITY
Bachelor's in Computer Science & Engineering **CGPA: 9.62/10** *2019-2023*

PROFESSIONAL EXPERIENCE

CG Infinity NOIDA, UP/INDIA
Consultant 1 *May 2022–August 2024*

- Optimized complex data processing workflows in a large-scale data warehouse, improving query performance by 25%.
- Led troubleshooting efforts for production issues, reducing resolution time by 30% and minimizing downtime.
- Streamlined ETL processes using Microsoft Azure, enhancing the efficiency and reliability of data pipelines.
- Developed and integrated cloud-based data solutions, ensuring scalability, security, and high availability.
- Executed rigorous QA testing for enterprise applications, reducing defect rates and improving system reliability.
- Implemented cloud security best practices, strengthening data protection and system integrity.
- Collaborated directly with clients to deliver customized data-driven solutions, increasing client satisfaction.
- Mentored junior team members in SQL, Azure, and data engineering best practices, fostering team skill development.

FlexTecs Nepal JWAGAL, KATHMANDU/NEPAL
ELT Developer May *2025–Present*

- Worked on building and improving SSIS ETL pipelines, helping make our daily data processes run more smoothly and reliably.
- Improved data quality and reduced manual data preparation through the creation of C# console applications for cleaning and restructuring raw data.
- Developed and optimized SQL queries and stored procedures, maintaining data consistency, resolving performance issues, and enabling accurate reporting.

LEADERSHIP EXPERIENCE

CG Infinity NOIDA, UP/INDIA
Consultant 1 *May 2022–August 2024*

- Coordinated client relations to ensure smooth communication and timely delivery of solutions, increasing client satisfaction.
- Improved project workflows with the integration of Azure services, reducing project deployment.

SKILLS:

- Data Analytics & Warehousing: ETL Processes, Data Warehouse Management, Data Handling
- Cloud Computing: Microsoft Azure (App Services, Functions, DevOps, Azure Data Streaming Services, Azure Database, Cloud Security)
- **Programming & Scripting**: C#, JavaScript, SQL, React
- Tools & Platforms: MSSQL Server, CI/CD Pipelines (Azure DevOps)
- Methodologies: Agile Development Practices
- Other Skills: API Development, Troubleshooting, Client Handling
